Dimensions are in inches (mm)

model EXR-B

model EXR-C

model EXR-R

MODEL:

- EXR-B**
Extractor with an operator arm.
- EXR-C**
Extractor with a 3/8" square rod.
- EXR-R**
Extractor with a round rod operator.

DESCRIPTION:

1. Model EXR-B has an operator arm that extends from the extractor and is manually set. This unit is operated from the inside of the duct.
2. Model EXR-C is adjusted with a 3/8" square rod(not factory - furnished).
3. Model EXR-R utilized a round rod operator to properly balance the air flow. A Young regulator #950 ball-joint bracket or a DuroDyne # SPR-14 may be utilized (not factory-furnished).
