

**ACCESSORIES**

ROUND DAMPER

**MODELS: OBR, BFD**

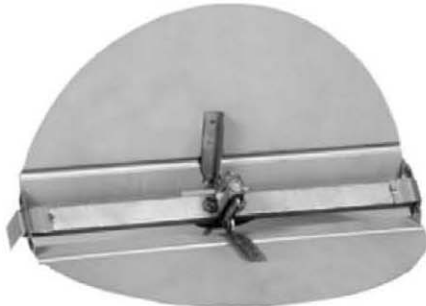

SUSTAINABLE EXTRUDED ALUMINUM

Dimensions are in inches (mm)

**model OB-R**

**model BFD**

**MODEL:**

- OBR**  
Round opposed blade damper.
- BFD**  
Butterfly-type damper.

**DESCRIPTION:**

1. Model OBR is a round opposed blade damper of aluminum alloy. It is utilized with round ceiling diffusers and mounts with a series of legs onto the neck of round diffusers. It is a screwdriver operated unit.
2. The model BFD is butterfly-type damper. It is utilized on the round neck perforated models or in conjunction with a square-to-round adapter. This is a stamped steel model which attaches directly on the throat of the round fitting in the field. Not to be used on RD-2S or RD-AS round ceiling diffusers.
