24"	24 1/8	9 3/16	2 1/2	42 1/2

**DESCRIPTION:**

1. Model RD-AS is an all-aluminum unit painted either aluminum or white in color. The unit provides 3/4" adjustability through utilization of a threaded mechanism. The "UP" position of the core provides vertical throw, and the "DOWN" position provides horizontal throw. The core is easily adjusted. An optional round opposed blade damper is screwdriver-operated through the face of the unit.
2. Model RD-2-S is an all-aluminum unit painted either aluminum or white in color. The core is fixed in either "UP" or "DOWN" position through a system of clips to stationary positions. The core is easily adjusted. An optional round opposed blade damper is screwdriver-operated through the face of the unit.
