

LINEAR BAR GRILLES

LINEAR BAR DIFFUSERS

MODELS: LD, LDOB

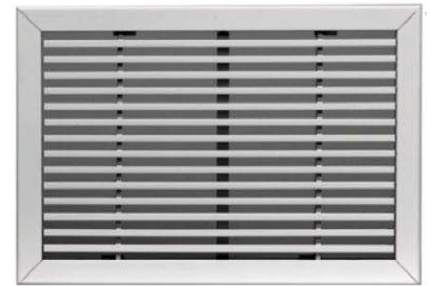

SUSTAINABLE EXTRUDED ALUMINUM

Dimensions are in inches (mm)

MODEL:

LD

LD

Linear bar diffuser

LDOB

Linear bar diffuser with OB damper

DESCRIPTION:

1. Frame and blades are 6063 extruded aluminum alloy and 200-R1 satin anodized finish.
2. The frame has a typical wall thickness of .050". The core is fully removable for easy installation.
3. This grille is available with blades set at 0°, 15° or 30°. Blades are 1/4" thick and spaced 1/2" on center. Mullion bars across the blades provide additional strength.
4. An optional opposed blade damper mounts through a series of spring clips and is screwdriver-operated through the face of the unit. The damper frame is separated from the blades with nylon bushings. This method of assembly eliminates corrosion and vibration.
5. Core is fully removable.
