

**MODEL:**

**OL2-FLANGE-J**

**OL2- FLANGE-J**

Outside air louvers with "J" blades and flange frame

**DESCRIPTION:**

1. "J" Blade: 6063 extruded aluminum alloy with 200-R1 satin anodized finish. It utilizes a flange frame with a "J" configuration blade which is 2" deep and mounted 1" on center.
2. An .080" aluminum extrusion is used for maximum strength with mechanically joined frame. It is weather resistant and neat in appearance. A factory-installed drain hole at the bottom of the frame allows water drainage.
3. 30" maximum one-piece construction for "J" blade. 36" maximum one-piece construction for chevron blade. A 72" maximum height applies to this product. An I-Beam is furnished as a connecting mullion for multiple piece units.

**OPTIONS:**
